# Joint Maritime Tactics Course

## Mission Statement:

*“The mission of JMTC is to provide Major and Unit Level Commanders and Strike Group Staff Officers with a foundational level of understanding and the practical skills required to plan and execute Strike Group Combat Operations in an integrated theater, joint, and coalition context, through facilitated academics, the Navy Planning Process, and reinforcement of skills through a synthetic war game in a maritime environment.”*

### Emphasis on:

- Relationships and Interactions between Composite Warfare Commander (CWC) and subordinate Warfare Commanders and Coordinators (W, Z, AREC)
- Joint and Combined operations/resources
- Navy Planning Process

# Joint Maritime Tactics Course

---

## Training Objectives:

- *Relate, explain, or demonstrate a working knowledge of Composite Warfare Commander (CWC) construct for integrated Strike Group Operations.*
- *Utilize the Navy Planning Process (NPP) to transition Higher Headquarters Requirements into execution orders at the tactical level.*
- *Recall the Joint Forces capabilities and their relationship with Combined Maritime Operations at the tactical level.*

# *Student Introductions*

---
